Notes to Unaudited Condensed Interim Consolidated Financial Statements For the periods ended June 30, 2021 and 2020 (Expressed in Canadian dollars unless otherwise indicated)

1. Nature of Operations and Going Concern

Nature of operations

Antler Gold Inc. (“Antler” or the “Company”) was incorporated under the Canada Business Corporations Act on March 23, 2016. The Company is classified as a Tier 2 Company as defined in the TSX Venture Exchange (the “Exchange”) Policies. The principal business of the Company is the exploration and development of mineral properties. The Company’s corporate and registered office is located at 1969 Upper Water Street, Suite 2001, Halifax, Nova Scotia, B3J 3R7.

The Company is in the process of exploring its resource properties and has not yet determined whether these properties contain economically recoverable mineralization. To date, the Company has not earned significant revenues and is considered to be in the exploration stage.

Going concern

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to a going concern. The going concern basis of presentation assumes that Antler will continue in operation for the foreseeable future and be able to realize its assets and discharge its liabilities and commitments in the normal course of business. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the Company’s ability to continue as a going concern, as described in the following paragraphs.

The Company incurred a net loss of \$575,005 for the six-month period ended June 30, 2021 (net loss of \$1,130,492 for the year ended December 31, 2020) and has no operations at this time which will generate revenue. Management estimates current working capital may not be sufficient to fund all of the Company’s planned expenditures. The ability of the Company to continue as a going concern and to realize the carrying value of its assets and discharge its liabilities when due is dependent on securing financing or monetizing assets. During the year ended December 31, 2020, the Company secured two financings for net proceeds of \$3,384,415 (note 7). Subsequent to the period ended June 30, 2021, the Company announced a non-brokered private placement financing to raise gross proceeds of \$500,000 from the sale of 5,000,000 units at \$0.10 per unit (note 12). There is no certainty that the Company will ultimately achieve profitable operations, become cash flow positive, or raise additional debt and/or equity capital. These matters indicate that a material uncertainty exists that may cast significant doubt on the Company’s ability to continue as a going concern.

The financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate. If the going concern basis was not appropriate for these consolidated financial statements, adjustments would be necessary to the carrying values of assets and liabilities the reported revenues and expenses, and the statement of financial position classifications used.

2. Significant Accounting Policies

Statement of compliance

The Company prepares its unaudited condensed interim consolidated financial statements in accordance with Canadian generally accepted accounting principles as set out in the Handbook of Chartered Professional Accountants of Canada – Part 1 (“CPA Canada Handbook”), which incorporates IFRS as issued by the International Accounting Standards Board (“IASB”).

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting (“IAS 34”), as issued by the IASB. Accordingly, certain information normally included in annual financial statements prepared in accordance with IFRS, as issued by the IASB, have been omitted or condensed. The unaudited condensed interim consolidated financial statements should be read in conjunction with the Company’s annual audited financial statements for the year ended December 31, 2020.

The policies applied in these unaudited condensed interim consolidated financial statements are based on the IFRS as of August 30, 2021, the date the Board of Directors approved the financial statements. Any subsequent changes to IFRS that are given effect in the Company’s annual financial statements for the year ended December 31, 2021 could result in the restatement of these unaudited condensed interim consolidated financial statements.

Basis of presentation

These unaudited condensed interim consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, 6321593 Canada Inc., Minera Zapoteca, S.A. de C.V., and Antler Gold Namibia (Proprietary) Limited. All intercompany transactions and balances have been eliminated on consolidation of the accounts. These unaudited condensed interim consolidated financial statements have been prepared on a historical cost basis except for any financial assets and liabilities classified as available for sale. The Company’s functional currency is the Canadian dollar, and these unaudited condensed interim consolidated financial statements are presented in Canadian dollars.

Significant accounting policies

These financial statements have been prepared using the same policies and methods of computation as the annual financial statements of the Company for the year ended December 31, 2020. Refer to note 2, *Significant Accounting Policies*, and note 3, *Capital Management*, of the Company’s annual financial statements for the year ended December 31, 2020 for information on the accounting policies as well as new accounting standards adopted.

Property and equipment

Property and equipment is recorded at cost less accumulated amortization. Amortization is calculated using the declining-balance method at the annual rate of 30% for exploration equipment and vehicles.

COVID-19 Pandemic

During 2020 and the period ended June 30, 2021 and subsequent to the end of the period, the outbreak of the novel strain of coronavirus, specifically identified as “SARS-CoV-2,” and commonly referred to as “COVID-19”, has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine

periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. The Company incurred a delay of a number of months in its planned exploration activities in 2020 due to COVID-19 restrictions. If future delays are realized due to government-imposed restrictions, this may impact the Company's ability to meet obligations under current regulations or its agreements and may reduce its ability to source financing for future activities. However, it is not possible to reliably estimate the length and severity of these possible developments and the impact on the financial results and conditions of the Company in future periods at this time.

3. Capital management

Antler manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to continue as a going concern. The Company considers capital to be shareholders' equity. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. There are no external restrictions on the Company's capital. No changes were made in the objectives, policies or processes for managing capital during the six-month period ended June 30, 2021 or the year ended December 31, 2020.

4. Investments

Changes in the Company's equity investments during the six-month period ended June 30, 2021 and the year ended December 31, 2020 are as follows:

	\$
Balance – January 1, 2020	11,984

Balance – December 31, 2020	19,486
Fair value adjustment for the period	<u>3,419</u>
Balance – June 30, 2021	<u><u>22,905</u></u>

In accordance with the Company's accounting policy for equity investments, the shares are recorded at fair value at the end of an accounting period, with any change in the fair value of the investments recorded on the statement of loss and comprehensive loss. During the six-month period ended June 30, 2021, the Company recorded an unrealized gain of \$3,419 on its investments (June 30, 2020 - unrealized gain of \$3,402).

The Company's interest in resource properties consists of:

Namibia

A shell subsidiary, Antler Gold Namibia (Proprietary) Limited ("Antler Pty"), was purchased from an independent third party for a nominal amount during the year ended December 31, 2020. The Company used Antler Pty to acquire certain properties in Namibia.

Erongo Central Project

In 2019, the Company entered a purchase agreement to acquire Exclusive Prospective License ("EPL") 6162, a gold exploration license in Namibia that is located within the Erongo region of central Namibia (the "EPL 6162 Agreement"). Antler acquired a 100% interest in EPL 6162 by paying the arm's length EPL 6162 vendor a cash payment of \$2,000, issuing 10,000 common shares of Antler, and by issuing \$2,500 of common shares of Antler based on the 10-day volume weighted-average price per common share immediately prior to the date of the EPL 6162 Agreement. Upon the renewal of the license, Antler completed a further cash payment of \$5,000 during 2020 and issued 17,077 common shares with a value of \$4,000 during the period ended June 30, 2021, being \$2,500 of common shares and \$1,500 for the value of an additional 10,000 common shares of the Company. Antler must also incur an additional \$50,000 in exploration expenses on EPL 6162 within one year of the renewal date.

Pursuant to the EPL 6162 Agreement, Antler has a right of first refusal to acquire a 100% interest in any gold exploration licenses in Namibia acquired by the vendor within two years from the date of the EPL 6162 Agreement. If Antler decides to acquire a new license from the vendor, the Company must make a cash payment of \$7,000, issue common shares of Antler Gold under similar terms as those issued under the EPL 6162 Agreement and incur exploration expenditures of at least \$75,000 within one year of the new license acquisition.

During the year ended December 31, 2020, the Company entered into a purchase agreement to acquire a 100% interest in the gold exploration license EPL 7261 (the "EPL 7261 Agreement"), which is located adjacent to EPL 6162. Pursuant to the EPL 7261 Agreement, Antler paid the arm's length vendor a cash payment of \$7,000, issued 65,652 common shares valued at \$7,222, being 20,000 common shares of Antler and \$5,000 of common shares based on the 10-day volume weighted-average price per common share immediately prior to the EPL 7261 Agreement. Antler must also incur exploration expenditures of at least \$75,000 before the first anniversary of the agreement, which the Company has met.

During the year ended December 31, 2020, the Company entered into a purchase agreement to acquire 100% of a Namibian gold exploration license EPL 6550 (the "EPL 6550 Agreement") and specifically referred to as the Etiro Dome Project. Pursuant to the EPL 6550 Agreement, Antler may acquire a 100% interest in EPL 6550 by paying the arm's length vendor a cash payment of \$3,500, issuing 10,000 common shares of Antler and \$2,500 of common shares of Antler based on the 10-day volume weighted-average price per common share immediately prior to the EPL 6550 Agreement. Antler must also have incurred exploration expenditures of at least \$25,000 before the EPL 6550 renewal date of May 27, 2020. Once EPL 6550 is renewed, the Company must make a further cash payment of \$5,000 and issue an additional 10,000 common shares and a further \$2,500 of common shares of Antler based on the 10-day volume weighted-average price per common share immediately prior to the date of the EPL 6550 renewal. Antler must also incur additional exploration expenditures of at least \$50,000 within one year of renewal.

Antler Gold Inc.

For the periods ended June 30, 2021 and 2020

(Expressed in Canadian dollars unless otherwise indicated)

Pursuant to the EPL 6550 Agreement, Antler has a right of first refusal to acquire a 100% interest in any EPL acquired by the vendor within two years from the date of the EPL 6550 Agreement. If Antler decides to acquire a new EPL from the vendor, the Company must make a cash payment of \$8,500, issue common shares of Antler Gold under similar terms as those issued under the EPL 6550 Agreement and incur exploration expenditures of at least \$75,000 within one year of the vendor's acquisition of the new EPL.

During the year ended December 31, 2020, the Company paid the EPL 6550 acquisition fee of \$3,500 and issued 35,945 common shares valued at \$3,450, which is \$2,500 of common shares as well as the value of 10,000 common shares issued.

During the year ended December 31, 2020, the Company entered into a purchase agreement to acquire an 85% interest in a gold exploration license in Namibia known as EPL 6408 (the "EPL 6408 Agreement"). Pursuant to the EPL 6408 Agreement, Antler may acquire an 85% interest in EPL 6408 by paying the arm's length vendor a cash payment of N\$6,500 (CAD\$517) upon signing and paying a further N\$25,000 (CAD\$2,040), as well as a final payment of N\$25,000 or the issuance of \$1,500 worth of Antler common shares (at the option of Antler) upon the successful transfer of EPL 6408 into Antler Pty. Upon earning the 85% interest in EPL 6408, Antler and the vendor will enter into a standard participating joint venture agreement, including proportionate cash funding obligations, which shall contain terms providing that if the vendor's interest is reduced to less than 10%, its interest will automatically be converted into a 5% free carried interest which can be purchased by Antler at any time for the payment of \$25,000 or the issuance of \$25,000 of Antler common shares. The decision to pay cash or issue shares will be at Antler's option.

During the year ended December 31, 2020, the Company paid the acquisition fees of N\$6,500 (CAD\$517) and the N\$25,000 (CAD\$2,040).

Erongo Western Project

In December 2019, the Company entered into an agreement to acquire a 75% interest in a private company, the sole asset of which is gold exploration license EPL 5455 in Namibia. EPL 5455 is located west of the town Usakos in the Erongo region of central Namibia. Antler has the right to acquire a 75% interest in the private company by paying the vendor, whose shareholders are arm's length parties to Antler, a non-refundable cash deposit of \$10,000 and a further cash payment of \$40,000 upon signing of the agreement. These amounts have been funded.

Further amounts to be paid pursuant to the purchase agreement are cash payments of \$50,000 on December 16, 2020, which was paid during the year ended December 31, 2020, and \$75,000 on December 16, 2021, along with the issuance of \$25,000 worth of common shares of Antler based on the 10-day volume weighted-average price per common share immediately prior to December 16, 2021. In 2019, Antler acquired a 100% title and interest in and to certain mineral claims comprising the Crescent Lake/KM61 molybdenum-copper-silver project located in Armstrong, Ontario. The Company acquired the KM61 Property in consideration of the assumption of all liabilities associated with the KM61 Property (which were nominal) and the future payment to the vendor, Sona Nanotech Inc. (“Sona”) of contingent consideration if the Company disposes of the KM61 Property to a third party, or enters into an agreement or arrangement with a third party to otherwise monetize the KM61 Property by way of joint venture, option or other form of transaction (a “Future Transaction”). The amount of the contingent consideration payable to Sona will be equal to 50% of the consideration received by the Company in the Future Transaction, net of the Company’s aggregate expenses related to the marketing, selling, upkeep and maintenance of the Property incurred between the acquisition of the KM61 Property and the date of such Future Transaction, to a maximum of \$3,000,000. The majority of the KM61 Property, including the mineralized zone, is subject to a 0.5% net smelter royalty (“NSR”). Expected volatility	192%
Expected dividend yield	-
Expected life	5 years
Weighted-average fair value per option	\$0.392

Based on the Black-Scholes option pricing model and the assumptions outlined above, the estimated fair value of the 1,125,000 options granted on March 5, 2017 is \$538,248, the estimated fair value of the 262,500 options granted on June 23, 2017 is \$67,725, the estimated fair value of the 200,000 options granted on February 12, 2019 is \$16,777, the estimated fair value of the 2,282,500 options granted on August 5, 2020 is \$929,099, and the estimated fair value of the 250,000 options granted on November 10, 2020 is \$62,544.
