### **1. Nature of Operations and Going Concern**

#### **Nature of operations**

Antler Gold Inc. (“Antler” or the “Company”) was incorporated under the Canada Business Corporations Act on March 23, 2016. The Company is classified as a Tier 2 Company as defined in the TSX Venture Exchange (the “Exchange”) Policies. The principal business of the Company is the exploration and development of mineral properties. The Company’s corporate and registered office is located at 1969 Upper Water Street, Suite 2001, Halifax, Nova Scotia, B3J 3R7. The Company’s technical office is located at 18 Liliencron Street, Windhoek, Namibia.

The Company is in the process of exploring its resource properties and has not yet determined whether these properties contain economically recoverable mineralization. To date, the Company has not earned significant revenues and is considered to be in the exploration stage.

#### **Going concern**

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to a going concern. The going concern basis of presentation assumes that Antler will continue in operation for the foreseeable future and be able to realize its assets and discharge its liabilities and commitments in the normal course of business. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the Company’s ability to continue as a going concern, as described in the following paragraphs.

The Company incurred a net loss of \$229,756 for the three-month period ended March 31, 2023 (net loss of \$964,708 for the year ended December 31, 2022) and has no operations at this time which will generate revenue. Management estimates current working capital may not be sufficient to fund all of the Company’s planned expenditures. The ability of the Company to continue as a going concern and to realize the carrying value of its assets and discharge its liabilities when due is dependent on the successful issue of equity to investors. There is no certainty that investors will subscribe to future offerings of equity by the Company. These matters indicate that a material uncertainty exists that may cast significant doubt on the Company’s ability to continue as a going concern and, therefore, that it may not be able to realize its assets and discharge its liabilities in the normal course of business.

The consolidated financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate. If the going concern basis was not appropriate for these consolidated financial statements, adjustments would be necessary to the carrying values of assets and liabilities, the reported revenues and expenses, and the statement of financial position classifications used.

#### *Namibia*

##### *Erongo Central Project*

In 2019, the Company entered a purchase agreement with an arms-length vendor to acquire Exclusive Prospective License ("EPL") 6162, a gold exploration license in Namibia that is located within the Erongo region of central Namibia (the "EPL 6162 Agreement"). Antler has acquired a 100% interest in EPL 6162

by completing all terms of the earn-in, including:

- paying the vendor \$12,000;
- issuing to the vendor 47,910 common shares of Antler with a fair value of \$7,700; and
- incurring \$50,000 of exploration expenditures on EPL 6162 within one year of the renewal date.

Pursuant to the EPL 6162 Agreement, Antler has a right of first refusal to acquire a 100% interest in any gold exploration licenses in Namibia acquired by the vendor within six years from the date of the EPL 6162 Agreement. If Antler decides to acquire a new license from the vendor, the Company must make a cash payment of \$7,000, issue common shares of Antler Gold under similar terms as those issued under the EPL 6162 Agreement and incur exploration expenditures of at least \$75,000 within one year of the new license acquisition.

In 2020, the Company entered a purchase agreement with an arms-length vendor to acquire a 100% interest in the gold exploration license EPL 7261 (the “EPL 7261 Agreement”), which is located adjacent to EPL 6162. Antler has acquired a 100% interest in EPL 7261 by completing all terms of the earn-in, including:

- paying the vendor \$7,000;
- issuing to the vendor 65,652 common shares of Antler with a fair value of \$7,222; and
- incurring at least \$75,000 of exploration expenditures before the first anniversary of the agreement.

In 2020, the Company entered into a purchase agreement with an arms-length vendor to acquire an 85% interest in a gold exploration license in Namibia known as EPL 6408 (the “EPL 6408 Agreement”). Pursuant to the EPL 6408 Agreement, Antler may acquire an 85% interest in EPL 6408 by completing all terms of the earn-in, including:

- paying the vendor \$2,557, which has been paid; and
- paying as a final payment of N\$25,000 or the issuance of \$1,500 worth of Antler common shares (at the option of Antler) upon the successful transfer of EPL 6408 into Antler Pty.

Upon earning the 85% interest in EPL 6408, Antler and the vendor will enter into a standard participating joint venture agreement, including proportionate cash funding obligations, which shall contain terms providing that if the vendor’s interest is reduced to less than 10%, its interest will automatically be converted into a free carried 5% interest, which can be purchased by Antler at any time for the payment of \$25,000 or the issuance of \$25,000 of Antler common shares. The decision to pay cash or issue shares will be at Antler’s option.

#### *Erongo Western Project*

In 2019, the Company entered into an agreement with an arms-length vendor to acquire a 75% interest in a private company, the sole asset of which is gold exploration license EPL 5455, located west of the town Usakos in the Erongo region of central Namibia. Antler has the right to acquire a 75% interest in the private company by completing all terms of the earn-in, including:

- paying the vendor initial payments totalling \$50,000, which have been paid;
- paying the vendor an additional payment of \$50,000 on December 16, 2020, which has been paid;
- during the year ended December 31, 2022, the Company renegotiated the final payments with the vendor. Under the new terms, Antler must make a cash payment of \$40,000 on or before January 31, 2022 and a second cash payment of \$42,000 on or before January 31, 2023 to acquire its 75% interest. The first cash payment of \$40,000 and an interim payment of \$30,000 were made during the year ended December 31, 2022. The balance of the second cash payment was paid during the three-month period ended March 31, 2023; and

- In addition to the cash and share consideration, Antler must also incur exploration expenses in the aggregate amount of \$200,000, which the Company has completed.

Once Antler acquires the 75% interest in the private company, it has the right to purchase the remaining 25% minority interest at the fair market value determined by a professional business valuator selected by Antler. If Antler does not exercise its right to purchase the minority interest, all shareholders will contribute on a pro-rata basis to fund the private company's activities, including exploration expenditures. Should the minority shareholder elect not to fund its portion of exploration expenditures and be diluted below 10%, then their interest will automatically convert to a free carried 5% interest in EPL 5455, which Antler can purchase at a price to be determined by a professional selected by Antler using international best practices for evaluating resource properties.

If within three years from the initial date of the EPL 5455 agreement, any of the vendor shareholders stakes or acquires an interest in any EPL in Namibia, then such additional interest must be offered in writing to Antler for an amount to be mutually agreed upon.

The vendor has performed past work exploring for graphite on a portion of the EPL 5455, and should a transaction be made to sell or joint venture the graphite area, the vendor shareholders will retain 90% of the proceeds and Antler is entitled to 10%.

#### *Zambia*

In 2021, the Company entered into a binding letter agreement (the “Zambia Agreement”) with an arm’s length vendor to acquire a greenfield rare earth elements project in Zambia (the “Kesyra Project”). The Kesyra Project is located within the vendor's currently held mineral license. Under the Zambia Agreement, Antler has the right to create a new license over the Kesyra Project and to transfer that license into a newly incorporated entity once certain terms and conditions are met, including:

- paying the vendor an initial \$5,000 on signing of the Agreement, which has been paid;
- \$25,000 of exploration work in respect of the Project within six (6) months of expiration of the 30-day due diligence period commencing on the date of the Agreement, which has been completed; and
- an additional \$10,000 payment to the vendor should Antler decide to proceed to establish an entity with the vendor and the pending transfer of the license to the entity, which has been paid.

Terms of the proposed agreement between Antler and the vendor will include, among other things, an initial 75% interest for Antler and 25% for the vendor in Antler Zambia. Antler will act as the operator of the Kesyra Project. During the year ended December 31, 2022, the Zambia Agreement was amended to allow the Company to purchase an additional 20% interest in Newco for \$15,000, which has been paid, resulting in the respective interests in Newco of 95% interest for Antler and 5% for the vendor. The resulting 5% interest held by the vendor will be free carried interest.

Subsequent to the period ended March 31, 2023, the Company entered into an option agreement with an arm’s length party, pursuant to which the third party has an option to acquire 51% interest in Antler Zambia, which will hold the Company’s Kesyra Project (see subsequent event note 13).
